**Subject:** Update on the status of NHOU RA discussions

Hello:

I wanted to provide you all with an update on the status of our discussions.

Since the meeting we had on September 18, EPA has been in renewed discussions with the LA DWP on the Groundwater Mgt Plan, having understood that it would be beneficial to the broader negotiations if that

is resolved first.

As some of you know, Fred Schaufler passed away at the end of November. In addition, my mother in law passed away the following week, which has resulted in my being out of the office for an extended period, with more anticipated over the next few weeks.

This has resulted in delays on EPA's part in responding to the LA DWP, and in continuing the discussions on the GMP. The result of this is that we are significantly behind the schedule I laid out for you at our last meeting. I am hopeful that LA DWP and EPA can come to agreement in early January, and will be able to provide the GMP to you all by late January.

Please let me know if you have any technical questions, or direct any legal questions (or questions from lawyers) to Mike Massey.

thank you for your patience, and have a happy holiday season.
